Presentation By CD 2 Council Member Grieg Smith:

Council member Smith reviewed the Mayor's budget for the City saying that the budget process is one of the best in the country and that Los Angeles has the highest credit rating for a mid-sized or larger city (this means that the terms for borrowing money are the lowest) and is one of three cities to win the Gold Seal of Approval. He then focused on specific topics pertaining to GHNNC. Here is a synopsis of what he said:

- **New development:** After Christmas, the Target Store on Nordhoff will be getting rebuilt.
- **Monies raised by local taxes:** Council member Smith has introduced a law that will keep city money raised from taxes in this area reserved for art programs in this area. He said that amounts to about \$130,000 to be spent locally.
- **Traffic lights:** All street lights in the City will be getting switched out this year. New, high intensity lights, which are more energy efficient, will be replacing them at all the stoplights.
- **Library funding:** More money is going to be spent on libraries – Northridge Library's operating hours will be expanded to 52 hours per week. An additional three million dollars will be spent on library books, citywide. Also, facilities will be upgraded to allow for stakeholders to use their laptop computers in City libraries.
- **Video conferencing for City hearings:** He has introduced video conferencing which now allows stakeholders to testify at city hearings from remote locations (city buildings) without having to go downtown, e.g. in Van Nuys Civic Center.
- **New police:** 123 new police officers were funded in the City budget via the trash tax.
- **Trash tax:** Council member Smith explained why he voted against it: He feels the way the tax was implemented was not truthful. He also felt it should be spread out over a 20 year period.

However, he feels, overall, the tax will be helpful in funding the closing of local landfills and instituting more environmentally friendly programs, especially recycling.

- **Terrorist threats:** He said that terrorist threats to the City are very real. He talked about a videotape confiscated in Afghanistan that showed L.A. landmarks. Over 500 targets have been identified as terrorist targets and are now being protected. He said more money is being spent on building emergency preparedness programs that can be put into use on the street level. These programs will help stakeholders be more prepared for other emergencies, as well, like earthquakes and fires.
- **New firefighters:** 250 new firefighters are being added to the budget so there can be ambulance and paramedic services at every local fire station in L.A.
- **Crime solving:** DNA samples will be getting shipped to Sacramento from everyone who is now in prison with the hopes of solving old cases.
- **Illegal signs:** He said there are now an estimated 50,000 illegal signs on the streets of L.A. Fifty-three new inspectors have been hired to control this with fines set at \$200.00 when people are caught. He asked stakeholders to call the City: "311" to report illegal signage with the exception of yard sale signs, which are fine as long as they are not left up past the weekend.
- **Graffiti:** More money is being allocated for combating graffiti and gangs.
- **Hazardous materials:** New "safe centers" are being opened for processing hazardous materials. One will be at Havenhurst and Roscoe. It will be open 4 days a week.
- **Traffic:** Traffic solutions being examined for Balboa Boulevard in Granada Hills. Land is being acquired at the top of Balboa to widen the road to four lanes to avoid bottlenecks. There will be a new traffic light on Balboa by How's Market, north of Rinaldi. This process could take a year or more to happen.
- **Aliso Park:** Improvements are being made for equestrian usage with a committee being set up to oversee usage of the 5.3 acres.
- **Sunshine Canyon:** Diversion plans are going to take place at Sunshine Canyon with trash being moved to dumps in San Bernadino. Tons of trash will be removed, recycling efforts will increase, and a new recycling test program is being tested for commercial use.
- **Multi-family housing:** A program will begin shortly (no more details are available).
- **RENEW LA:** The City has approved this program and will begin next month to make the City more energy efficient.
- **Free movies:** Two movies will be shown locally as part of the Council member's Movies Under the Stars Program: "Ghostbusters" will be shown in Granada Hills on Oct. 21 and "ET" on Nov. 5th.
- **Northridge Community Clean up:** On Oct. 8,th there will be a Northridge Community Clean up.
- **Tree Giveaway Program:** Free trees will be handed up on Sept. 30 at Devonshire Elementary School. Stakeholders must show proof of ownership of property and sign a form committing to care for the trees.
- **Granada Hills Street Fair:** This takes place Oct. 7th.
- **Stakeholder Questions:** The Council member also responded to questions regarding trash, traffic, terrorism, illegal signage, motor homes parked on city streets, frog deaths in O'Melveny Park, elimination of signage on residential properties, funding for libraries, and speed bumps/humps.
